

PUZZLE
ERASER

iwako®

NO.1 JAPANESE PUZZLE ERASER

IWAKO was founded in 1968.
 Asking why erasers always have to be rectangular, IWAKO started making erasers with different shapes
 Today, many people in Japan and around the world love IWAKO erasers.

Constantly innovating, IWAKO creates many new eraser designs every year.
 As long as we have a shape to work with, we keep going to develop new styles
 For animals, we put our drive and energy into making them as cute as possible.

For food styles, we strive for realism.
 For animal styles, we pursue the perfect balance of entire shape in order to make it look cutest.
 And always our creativity and imagination are in there.

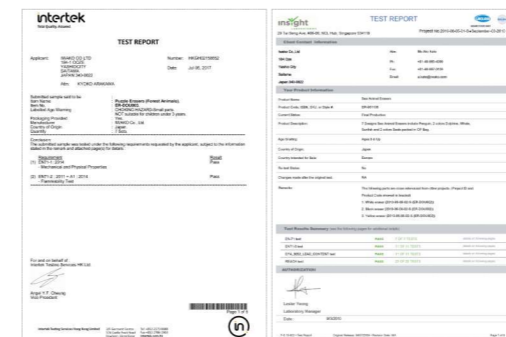

IWAKO erasers are made entirely in Japan.
 Safe, effective as erasers, and attractive, people from children to grown-ups love IWAKO erasers.

IWAKO welcomes children, who are our future, to tour our factory so they can learn the joy of creation. Every year 200 groups of children visit our factory. Touring the factory and touching machines and materials excites their imagination. Some of our erasers were even created from their ideas.

We hope you enjoy the joyful world of IWAKO erasers.

IWAKO Co., Ltd.
 President : Tsutomu Iwasawa

Toy Safety Certification

IWAKO magic made it possible to make look-real, touch-real eraser without using any toxic materials. All IWAKO products comply with International toy safety regulations below:

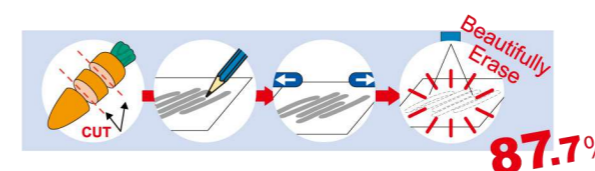

- ASTM F963(USA)
- CPSIA(USA)
- EN71(EU)
- KC(KOREA)
- GB(CHINA)
- GSO(GCC Countries)

VJC Attractive Souvenirs of Japan Contest 2008

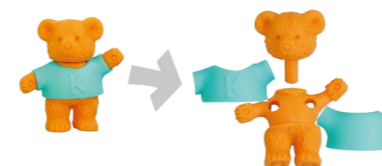

IWAKO is a gold prize winner of this contest. 2008. The objective of the Contest is to promote tourism in Japan by selecting particularly attractive souvenirs in terms of quality and design as seen by foreign visitors, that will lead not only to nirtiring and finding attractive Japanese souvenirs, but to promoting regional brands, and conveying through such merchandise the beauty and the appeal of Japan.

Practicable As Erasers

Only a collective use?? NO!!
 IWAKO eraser can be used as an ordinal eraser, it maintains 87.7% of erasing efficiency.

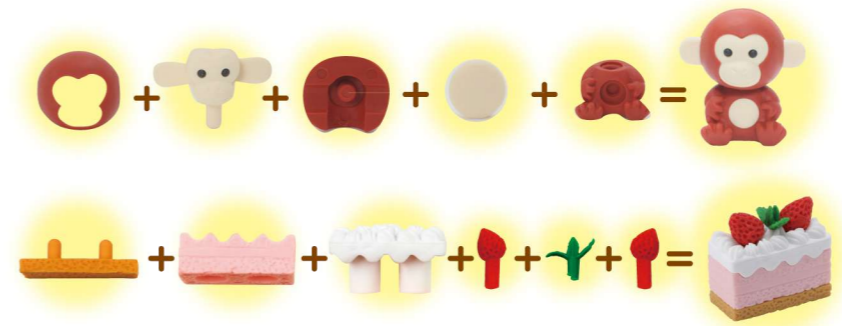

Play with Iwako Erasers

IWAKO erasers are made from parts with different colors. You can take the erasers apart and then put them back together. Children enjoy this and practice their manual dexterity. With over 500 different varieties, Iwako erasers are fun for everyone from children to grown-ups.

Manufacturing Process

- 1 Development of Wax Model
- 2 Development of Molds
- 3 Mixing Colors
- 4 Injection Molding
- 5 Parts Assembling
- 6 QC & Packaging
- 7 Shipment

1 Based on the drawing of the eraser, wax model is made by craftsman.

episode #1
Adult male craftsman gained lots of weight after eating around perfaits to express real texture of parfait on parfait eraser.

episode #2
A policeman caught IWAKO craftsman who was taking pictures of patrol car for his eraser model.

2 Molds are developed for each part of eraser.

mold for pepper part, mold for cheese part, mold for dough part, mold for tomato part

Check and modify molds many times before going into mass production.

3 IWAKO thinks color is very important.

Coloring decides the impression of final products. In order to pursue realism, the coloring is a continuous process of trial and error.

4 IWAKO's Secret - blending of raw material -

Filler, Softner, SBS, Stabilizer

Combination of each material is developed to express detail of food texture and animal expressions in erasers and it is confidential.

5 Assembling of eraser parts is all manual works.

English Bread, Pizza

6 Every piece of product is checked under strict QC system before packaging.

Check carefully to deliver safeness and joy to children all over the world.

7 Quick delivery is IWAKO's motto.

Fax machines at IWAKO office don't stop

Once development processes are done, manufacturing through shipment is handled with maximum speed. We do not keep you waiting!!

Product Line

BLISTER PACK

No.1 SALES both in Japan and overseas!
Some items are available only in this package.
(e.g. log chair in Zoo Blister)

BENTO BOX SET

The very Japanese combination of Bento Box and puzzle eraser.

COLORZ's colorful pieces perfectly match the display.

- Material : Paper (Hook: Plastic)
- Carton size : W310×D628×H128mm

OEM Q&A

Can I have a sample to review prior to the order?

→ No, unfortunately we can not provide the sample because we have to produce the mold first in case of OEM for the original eraser. In case of the change of color with the standard eraser, we can provide the sample by data, but not the physical sample of eraser.

Do I have to submit the design by data for OEM?

→ No, a sketch is acceptable.

Can you produce the new products under our brand name?

→ Yes, but we may ask you to include Iwako's logo or information.

Do you keep the mold for us?

→ Yes, Iwako maintain and stock, so Iwako can start promptly in case of the reproduction.

Do you discount the price of mold if we order a big volume of erasers?

→ No, we set the price of mold and the products separately.

Can you produce any colors for erasers?

→ Yes, we tone as much as possible to the color you choose with PANTONE or any color code.

Is there any other products Iwako manufacture besides erasers?

→ We manufacture the plastic stationery; for example, pencil cap, sharpener, ruler and pencase. Please contact Iwako Global Co., Ltd. for more information.

Can you obtain the safety standard report for us?

→ Yes, we can arrange the report for you at your expense for OEM products. For regular IWAKO products, please contact your local IWAKO distributor for safety report.

How long does it take to produce OEM product?

→ From 2 weeks to 4 months depending on the type of OEM and quantity. Please contact Iwako Global Co., Ltd.

Can you use a model, data, package and etc. supplied from our side?

→ Please consult for the details.

Is the partial delivery or installment payment possible?

→ Yes, but please understand the price would be different from the one time payment.

For OEM products, For regular IWAKO products, Please contact your local IWAKO distributor.
